Most productivity apps assume you can "just focus"

If you have ADHD, that's like telling someone with a broken leg to "just walk."

PRODUCT 1

MindShift

🧠 **3-phase timer** — struggle, release, flow. Your brain's natural rhythm.

🎵 **Synthesized audio** — brown noise, lo-fi, gamma. No streaming, works offline.

🤝 **Focus Rooms** — silent body doubling. See who's in flow, no chat needed.

💎 **Crystal economy** — real focus minutes = real currency in the ecosystem.

PRODUCT 2

VOLAURA

Verified skills platform. Same psychometric math as GRE — but for real competencies.

Communication **85**	Leadership **78**
Reliability **92**	English **88**

PLATINUM GOLD SILVER BRONZE

PRODUCT 3

Life Simulator

An RPG where your real achievements become character stats.

Intelligence
Grows from real focus sessions

Social
VOLAURA communication score

Energy
MindShift burnout tracking

Crystals
Earned, never bought

Happiness
Streaks + achievements

Health
Recovery + balance

Stats can't be bought. Only earned.

47 minutes of focus = Intelligence goes up. No shortcuts.

A world for professionals who think differently

Follow the build
